ECLIPSES, AND TRANSIT OF MERCURY,

IN THE YEAR 1845.

THERE will be four eclipses this year—two of the Sun and two of the Moon, and a transit of Mercury across the Sun's disk.

I. The Sun will be eclipsed on the 6th of May, in the morning, invisible throughout the greater portion of the United States, but partly visible in the north-eastern parts. At Boston, the sun will rise 5 17 digits eclipsed on the northern limb, at 4h. 51m. and the eclipse will end at 5h. 18m. At N. York the sun will rise 2.23 digits eclipsed, at 4h. 54m. and the eclipse will end at 5h. 6m. The eclipse will be invisible in the southern and western States; but visible in Greenland, in the British Islands, in the greater part of Europe, and in part of Asia.

II. There will be a transit of the planet Mercury across the southern limb of the sun, on the 8th of May, visible throughout America. Duration of the transit 6h. 29m.

III. The Moon will be eclipsed at the time of her full, on the 21st of May, in the morning, invisible in America.

IV. The Sun will be eclipsed at the time of New Moon, on the 30th of October, in the evening, invisible in America; but visible in Australia and in New Zealand. It will be central and annular on the meridian in longitude 172 deg. 42m. east from Greenwich, and latitude 75 deg. 39m. south.

V. The Moon will be eclipsed on the 13th of November, in the evening, visible. Beginning of the eclipse at Hartford, 6h. 20m., ending 9h. 38m. Duration of the eclipse, 3h. 18m.

Venus will be morning star until May 16th, then evening star until March 23d, 1846.

Abstract of the Report of the Commissioner of the School Fund, May, 1844.

The capital of the Fund, as ascertained on the 18th day of April, 1844, was invested as follows:

In Bonds, Contracts and Mortgages,	\$1,695,407 44
In Bank Stock,	221,700 00
In Cultivated Lands and Buildings,	78,367 00
In Wild Lands,	52,493 75
In Stock,	210 00
In Cash,	3,245 58

Total amount of capital,	<hr/> \$2,051,423 77
--------------------------	----------------------

The receipts from the Fund, the last year, amounted to \$132,140 47— the disbursements to \$122,425 90.— The whole number of children returned, between the ages of 4 and 16 years, was 84,303; and two entire School Societies, which, last year returned 895 children, made no returns. The amount divided to each child has been one dollar and forty cents. The total amount divided to Schools during the forty-seven years in which the Fund has drawn interest \$2,962,-922 33.

The Report states that applications, the past year, for loans from the Fund have not been diminished; but the increase has far exceeded in amount the additional funds which have been on hand for re-investment. The loans of the last fiscal year have been \$77,931 04.

The Western Reserve Lands in Ohio were sold the 2d Sept. 1795, by the State, for \$1,200,000. The avails were secured by the bonds of the purchasers on interest at 6 per cent. The interest for the two first years was remitted by the Legislature; so that the debts carried interest from the 2d of September, 1797.

HARTFORD:

PUBLISHED BY SAMUEL GREEN.

SOLD BY ALL BOOKSELLERS IN THE STATE.

1846.

Entered according to Act of Congress, in the year 1832,
BY SAMUEL GREEN,
in the Office of the Clerk of the District of Connecticut.

S. FOLSOM, PRINTER,
Central Row, Hartford.

ECLIPSES IN THE YEAR 1846.

There will be but two eclipses this year, both of the Sun, in the following order :

I. The first will be a visible eclipse of considerable magnitude, on Saturday, the 25th of April. The times, &c., for Hartford, are as follows :

Begins,	11 06 A. M. }	Mean
Greatest Eclipse	0 23 P. M. }	or
Ends	1 48 P. M. }	Clock Time.

Duration, 2. 42. Digits 7 upon Sun's South Limb.

This eclipse is remarkable for the length of its continuance, as compared with its quantity.— Though much smaller than the great eclipse of May 26, 1854, it will yet continue 24 minutes longer than will that eclipse, because the apparent motions of the Sun and Moon in the smaller eclipse are nearly parallel to each other. In lat. $25^{\circ} 21' N.$, long. $74^{\circ} 31' W.$, the sun will be centrally and totally eclipsed on the meridian.

II. The second will be October 20th, at 2h. 58m. morning, consequently invisible.

THE PLANETS.

Venus will be evening star until the 2d of March, thence morning star until Dec. 18, thence evening star to the end of the year. She will be most brilliant about the 26th of January, and the 7th of April.

Jupiter will appear conspicuously in the evenings of the early and latter part of the year, particularly about the 3d of December.

Saturn may be favorably observed about the 20th of August. Throughout the month of February, Mars and Jupiter will be in close proximity to each other, particularly on the 15th and 16th of the month.

Showing the difference of High Water at several places from New London.

The sixth column of each monthly page shows the time of high water at New London, New York, Elizabethtown Point, Tarpaulin Cove, Cape Henlopen, Cockspur in Georgia, and Brunswick, in North Carolina—to which if you add and substract as in the annexed table, you will have the time of high water at the following places. A. shows that the annexed quantity of time must be added—S. substracted—H. stands for hours—M. for minntes

Entered according to the Act of Congress, in the year 1832,
BY SAMUEL GREEN,
in the Office of the Clerk of the District of Connecticut.

ECLIPSES IN THE YEAR 1847.

There will be four Eclipses this year, two of the Sun, and two of the Moon, all of them invisible to us, as follows :

I. The first will be a small eclipse of the Moon, March 31, at 4h. 27m. P. M., ending a short time before the Moon rises—therefore invisible.

II. The second will be of the Sun, April 15, at 1h. 32m. in the morning, invisible.

III. The third will be of the Moon, September 24, at 9h. 36m. in the morning, therefore invisible.

IV. The fourth will be of the Sun, October 9, at 4h. 17m. in the morning, to us invisible ; but at or near the city of Paris, this eclipse will be annular at about 8 o'clock in the morning, apparent time at Paris, exhibiting a most beautiful appearance. About eighty years ago, calculations of all the eclipses which were to happen in France until the end of the 19th century were made to gratify the French king, who was anxious to know if a total or annular eclipse of the sun would happen ; when it was found the only one during that period, would be the eclipse of October 9th, 1847. During the same period we may count at least seven eclipses in the United States, of the required description, viz., the eclipses of 1791, 1806, 1831, 1834, 1838, 1854, and 1875.

THE PLANETS.

Venus will be Evening Star until October 3d, thence Morning Star till July 1848. Jupiter may be favorably observed the first four months of the year, also in the month of December ; Saturn the last four months of the year ; and Mars the last three months of the year.

SCHOOL FUND.

The property constituting the Capital of the School Fund, as audited and examined by the Auditors of Public Accounts, and each item compared with the documents and vouchers in the office of the Commissioner, and reported to the last session of the Legislature, consisted of the following particulars, viz.:

Contracts, Bonds and Mortgages,	\$1,642,083 22
Bank Stock in Connecticut, - -	254,700 00
Cultivated Lands and Buildings, in 3 States,	74,590 00
Wild Lands in three States, - -	66,922 71
Personal Estate, - - - -	180 00
Cash in the Treasury for investment, -	31,579 08
<hr/>	
Total,	\$2,070,055 01

The wild lands in Ohio, from which the fund originated, were sold in 1795, for \$1,200,000.

There have been paid out to the schools from the income of the fund, the following, viz.:

In the first 13 years, under a Board of Managers, - - - -	\$456,757 44
In the next 15 years, under the administration of J. Hillhouse, - -	780,920 24
In the last 21 years, under the administration of S. P. Beers, - -	1,962,359 85
<hr/>	

Whole amount divided to the Schools, \$3,200,037 53

In 1825, 6 and 7, the amount annually divided to the Schools was about \$72,000, or 85 cents to each child. For the years 1842, 3, 4 and 5, it has been about \$117,000 annually, or \$1.40 to each child. The present year it is \$1.45.

The State is divided into 215 School Societies, which are subdivided into 1644 School Districts.

Number of children in the State, between 4 and 16 years of age, 85,275.

Proposed Amendments to the Constitution of this State ; ordered to be continued to the next General Assembly.

“That there shall be one stated session of the General Assembly, to be holden in each year alternately at Hartford and New Haven, on the first Wednesday of December, and at such other times as the General Assembly shall judge necessary. The session holden on the first Wednesday of December, 1848, shall be holden at Hartford. On special emergencies or in case of danger, the person administering the office of Governor may convene the General Assembly as is now provided by the Constitution.

“The Governor of this state shall hold his office for one year from the first Wednesday of December next succeeding his election, and until his successor be duly qualified: and the Governor, Lieutenant Governor, members of the General Assembly, Treasurer, Secretary and Comptroller who may be appointed by the electors in April, 1848, or by the General Assembly in May, 1848, may hold their offices until the first Wednesday of December, 1848; and all the officers appointed by the General Assembly or either branch thereof, at their session in May, 1848, who by the Constitution are to be appointed annually, shall hold their offices until the 20th day of January, 1849.

“The persons who hold the office of Sheriff in the several counties on the second day of June, 1848, shall, unless otherwise removed, hold their said offices till the first day of January next after their respective terms of office would expire by virtue of the existing provisions of the Constitution.

“That the annual meetings of the electors for the election of the several officers by them to be chosen at any annual elector's meeting shall be holden on the first Monday of November in each year, and not on the first Monday of April in each year; and all the proceedings respecting returns, canvassing and counting votes now required by the Constitution to be had in the month of

April, shall hereafter be had in the month of November. And the General Assembly shall have power to enact laws providing for the election of Representatives at some time subsequent to the first Monday in November, in all cases when it shall so happen that the electors in any town shall fail on that day to elect the Representative or Representatives to which such town shall be by law entitled."

"Every male citizen of the United States, who shall have attained the age of twenty-one years, who shall have resided in this state for a term of one year next preceding, and in the town in which he may offer himself to be admitted to the privileges of an elector, at least six months next preceding the time he may so offer himself, and shall sustain a good moral character, shall on taking such oath as may be prescribed by law, be an elector."

"The several towns in this state shall annually appoint, by a majority of the votes of all the electors present, residing therein, and qualified to vote in the choice of Representatives therein, a sufficient number of Justices of the Peace within the same, at such time and in such manner as shall by law be prescribed."

"The Judges of Probate shall severally be appointed by the electors residing in the several Probate Districts, and qualified to vote for Representatives therein, in such manner as shall be prescribed by law."

TO THE PUBLIC.

NOTE. In this Register, the Executive, Legislative, Judicial and Civil departments are carefully copied from the "Official Records" of the State, and the Military from the official returns obligingly furnished by the vigilant and efficient Adj. Gen. James T. Pratt, containing a complete list of the Military officers of the State from the Commander in Chief to the Ensigns and Cornets, inclusive, and giving the names of the towns in which the several Regiments are formed. It is hoped that the officers will feel it to be their duty to purchase a copy. The design of the work is to supply the public with a book of daily reference solely, at a cheap price, in a style respectable and in keeping with the object; and not for advertising or display of mechanical ingenuity.

In the compilation of this number, I have had the assistance of the postmasters of every town in the state, the clerks of the courts, sheriffs of the counties, and intelligent gentlemen in the several cities, with the use of the state records; and I have reason to believe that it is as correct as the Register published by the Secretary of the State. I do not feel willing to be *driven* from a post I have occupied, by the favor of the public, for fifty-seven years, nor prepared at this time to bid adieu to my friends, but shall endeavor to wait submissively for coming events. S. GREEN.

Entered according to the Act of Congress, in the year 1832,
BY SAMUEL GREEN,
in the Office of the Clerk of the District of Connecticut.

ECLIPSES IN YEAR 1848.

I. *March 5.* Sun eclipsed. Nearest approach of centers at 7 57 A. M. At most places in the State, this eclipse, if visible at all, will be perceptible, I think, only by very close observation. The greatest probability of seeing an eclipse, will be near the northern boundary of the State.

II. *March 19.* Moon totally eclipsed, but this eclipse also will be scarcely visible at Hartford, as it ends 3 minutes after the moon's apparent rising. Along the eastern boundary of the State a small portion of it may be seen under favorable circumstances, but in the western parts it will be generally invisible.

III. *April 3.* Sun eclipsed at 6h. P. M., invisible.

IV. *Aug. 28.* Sun eclipsed, 2h. 27m. P. M., invisible.

V. *Sept. 12 and 13.* A TOTAL eclipse of the moon, visible as follows:

Begins, Sept 12,	11h 40m	Evening.
------------------	---------	----------

Begins to be total	0h 38m	Morning.
--------------------	--------	----------

Middle	1h 28m	"
--------	--------	---

Total eclipse ends	2h 17m	"
--------------------	--------	---

Eclipse ends	3h 15m	"
--------------	--------	---

Duration of total immersion 1h. 39m. Whole duration 3h 35m. The moon will pass very near to the center of the shadow. The planet Saturn will be near the moon at the time of this eclipse.

VI. *Sept. 27.* Sun eclipsed at 4h. 44m. morning, invisible.

TRANSIT OF MERCURY.

There will also be a transit of Mercury on the 9th of November beginning before sunrise about 36 minutes. Nearest approach of centers 8h. 53m. A. M. End 11h. 53m. A. M. Least distance of centers 2' 43".

THE PLANETS.

Venus will be morning star till July 17, thence evening star to the end of the year, Mars may be favorably observed the first three months of the year; Jupiter the first four months. Saturn in January and September. *His ring will be invisible from April 22 to Sept 3, and again on the 12th of Sept.*

THE MOON.

The Moon will not run very high or very low this year. In her monthly course around the earth, she will each time pass near the bright stars Aldabaran and Regulus and this phenomenon will be particularly observable with regard to the former on the evening of February 12, and morning of November 12.

A TABLE,

SHOWING THE DIFFERENCE OF HIGH WATER AT SEVERAL
PLACES FROM NEW LONDON.

The sixth column of each monthly page shows the time of high water at New London, New York, Elizabethtown Point, Tarpaulin Cove, Cape Henlopen, Cockspur in Georgia, and Brunswick, in North Carolina—to which if you add and subtract as in the annexed table, you will have the time of high water at the following places. A. shows that the annexed quantity of time must be added—S. subtracted—H. stands for hours—M. for minutes.

From the annual report of the Quarter Master General to the General Assembly, it appears that the expenses of the department for the year ending with the month of March last, have been \$823 78. One hundred and twenty-five muskets and seventy rifles have been distributed to the militia during the past year, and ninety-six muskets and thirty-nine rifles have been received into the arsenal from the militia. In addition to the ordinance and arms now deposited in the State Arsenal, there is in the posses-

sion of the militia of the State, 14 six and three pound brass guns; 28 six and 1 three pound iron guns; 6684 muskets; 413 rifles; 130 pistols, and 45 sabres.

Extract from Military Law, passed 1847.

"All persons, except commissioned or warrant officers and members of uniform companies duly organized, may annually commute for military duty by paying to the collector of State taxes in the town in which he resides the sum of one dollar between the first day of January and first day of May. Such Collector shall give duplicate receipts therefor, and such receipts or his return thereof shall be the sole evidence of such exemption."

"Any person subject to military duty who shall have been enrolled and duly notified thereof, who shall neither volunteer into some uniformed company nor pay to the collector of State taxes the commutation of one dollar, as is provided in the preceding section of this act, shall pay a fine of four dollars, to be recovered by warrant from the commanding officer of the regiment in the limits of which such person resides."

There shall be paid, for services rendered annually, to every commissioned and non-commissioned officer, musician and private, for every day actually on duty at any parade required by law, not to exceed one dollar and fifty cents each.

#### ABSTRACT OF THE BANK COMMISSIONERS REPORT.

The report of the Commissioners to the General Assembly, represents the Banks to be in a sound, healthy and safe condition. During the year, every bank in the State has made at least, its customary dividends, averaging  $3\frac{1}{2}$  per cent. semi-annually. The resources and liabilities of the thirty-two banks and branches are as follows:

| Aggregate of liabilities, . . . . . | \$6,474,179 58 |

The immediate liabilities of the banks on the first of April, were as follows:—Circulation, \$4,437,631 06; deposits, \$1,751,655 26; due banks, \$245,816 88; unpaid dividends, \$31,266 59—total \$6,466,369 79. The immediate resources were—specie, \$462,165 53; bills of other banks and cash items, \$270,618 02; due from banks, \$1,250,410 91; due from brokers, \$332,542 20, total, \$2,315,736 66. The present available means of the banks, putting the stocks held by them into the estimate, are about thirty-seven per cent. of their liabilities—the year preceding they were less than twenty-eight per cent.

Every bank in the State, after making its last dividend, had on hand a surplus of earnings over and above the amount of dividend; and in some instances this surplus fund amounts to a full dividend of more than seven per cent. on their capital. The surplus of the several banks, is as follows:—Phoenix and Branch, \$82,699 73; Hartford, \$105,589 89; Farmers and Mechanics, \$40,000 00; Exchange, \$27,395 64; Connecticut River, \$3,121 88; Middletown, \$24,776 42; Middlesex County, \$5,344 74; East Haddam, \$6,646 97; New Haven, \$6,278 64; New Haven County, \$14,000; City, \$9,098 68; Mechanics, \$15,167 99; Meriden, \$4,354 19; Bridgeport, \$17,400 54; Connecticut and Branch, \$18,741 32; Fairfield County, \$8,167 86; Danbury, \$4,916 70; Stamford, \$5,119 36; Windham County, \$2,288 94; Windham, \$2,149 93; Thompson, \$1,867 04; Tolland County, \$9,568 82; New London, \$3,747 26; Whaling, \$4,801 19; Union, \$10,400; Merchants, \$6,862 97; Norwich, \$4,769 12; Thames, \$1,017 71; Quinebaug, \$14,172 50; Jewett City, \$1,830; Mystic, \$3,652 96; Stonington, \$7,575 52.

The number of depositors in the Hartford Savings Bank on the first of April, was 8814. Amount deposited, \$1,060,881 01. Money deposited from April 1, 1846, to April 1, 1847, \$199,461 73; money withdrawn during same time, \$167,807 87. The dividends for the year have been  $5\frac{1}{2}$  per cent.

There were 1571 new depositors for the year ending April 31, 1847. The several Savings Banks in the State are believed to be managed with fidelity, and the number of depositors is constantly increasing.

On the 6th of September, 1781, at the dawn of day, a numerous British fleet appeared at the mouth of New London harbor, and soon after, landed on each side of the river, about 1000 men. The division in Groton under command of Col. Eyre. The militia which had been stationed at Forts Griswold and Trumbull, were discharged a few days previously, "their times being out." This unfortunate fact being known by the enemy in New York, the notoriously infamous Benedict Arnold, proposed and commanded the expedition. Col. Ledyard, who commanded Fort Griswold, was in New London when the fleet first appeared, and on taking leave of a friend when about to pass over the river, said to him, "I will retain possession of the fort or perish." In the mean time, all the able citizens of the village of Groton, and some from the neighboring towns, repaired to the fort, with strong arms and stouter hearts, to the number of about 120. The enemy having landed, about two miles from the fort, made a rapid approach, and demanded its surrendry, which was promptly refused; the storming soon commenced, and the British were repulsed. Unfortunately the standard was cut away by a chance shot, and the enemy supposing the fort had surrendered, returned; who meeting an unexpected opposition, became more furious, broke through the palisades, which were very rotten, and the parapets being very low, the citizens poorly armed, and vastly outnumbered by the assailants, the fort was taken, after a resistance, under the circumstances, almost unparalleled. Major Montgomery, who commanded the storming party, approached Colonel Ledyard, saying, "*who commands this fort?*" The Colonel replied, "*I did, but you do now,*" at the same time presenting the hilt of his sword. The Briton took it and immediately ran it through the Colonel's breast. Captain Peter Richards, of New London, who was near, immediately cut the ruthless Major down, and was soon after killed himself. Then commenced a ferocious and general slaughter of the Americans, who had surrendered. A few concealed themselves behind the chimneys of the barracks, and more fled

into the magazine, and were thus saved, by the fear of the enemy of being blown up, if they were fired upon. In this savage onslaught, sixty-one British and seventy-eight of our citizens were killed, and many wounded.

The New London Gazette of the day, stated the number of volunteers in the fort to be 120, consisting principally of heads of families. There was also a sergeant's guard of militia, who made their escape from Fort Trumbull. The conflagration of Groton and New London followed the massacre. The enemy then buried their dead, and embarked on board their fleet, accompanied by the execrations of the widows and orphans made desolate and miserable by their barbarity. It was an act of infamy and savage ferocity, the remembrance of which will be as durable as the walls of the monument.

Pyramids, obelisks, and other magnificent structures have from earliest time been erected in commemoration of men distinguished for their eminent patriotism, bravery, philanthropy or wisdom, not as a savory unction to the dead, but that the youth of succeeding generations might thereby be excited to emulate the virtues of their ancestors. With this object in view, the monument on Mount Ledyard, on Groton Heights, was built, and may remain unshaken for thousands of years, growing more and more interesting in its tale of glory and woe, to beholders in all future time.

The names of the slain, as follows, are inscribed on a marble slab, placed over the entrance door.

Belonging to Groton, Lieut. Colonel William Ledyard, John Williams, Simeon Allen, Samuel Allen, Amos Stanton, Hubbart Burrows, Nathan Moor, Youngs Ledyard, Joseph Lewis, Henry Williams, Ebenezer Avery, John Lester, John Steadman, Daniel Avery, David Avery, Esq., Daniel Chester, Solomon Avery, Jasper Avery, Elisha Avery, Thomas Avery, David Palmer, Sylvester Wolworth, Philip Covil, Eze-
